Barnard Computer Science is looking to hire self-identifying women Columbia Ph.D. students or postdocs to serve as group leaders for Barnard BEARS: Better, Enhance, and Advance Research Series. BEARS is a workshop series preparing Barnard undergraduate women for opportunities in Computer Science research.

Benefits:
- Develop a network of peers similarly committed to increasing the participation of women in Computer Science research
- Leadership opportunities
- **Remuneration: $1,000 for the academic year**

Responsibilities:
- Serve as a mentor and role model to a group of 5 Barnard students
- Lead 6 monthly 50-minute discussions with a group of 5 students on topics related to the CS research experience. These will include 1) applying to grad school; 2) imposter syndrome; 3) effective collaboration; 4) sexism and racism at work; 5) differences between research and classwork; 6) how to connect with faculty for research opportunities
- Monitor a private group Slack channel for the 5 students in your group

Qualifications:
- Current Ph.D. student or postdoc in Computer Science or a related field
- Live and identify as a woman
- Must be excited about serving as a role model and mentor for undergraduate Barnard students

To apply, students should fill out the following google form (https://forms.gle/Nt3m7xYpgMySXjiW6). If you have any questions, please reach out to Dr. Sarah Morrison-Smith and Dr. Adam Poliak at bears@barnard.edu.
